

# Matt Kizlinski

Matt Kizlinski has 18 years of expertise in environmental planning and permitting services. Mr. Kizlinski's focus is Clean Water Act (CWA), National Environmental Policy Act (NEPA) compliance, and state and local permitting. His NEPA experience includes categorical exclusions, EAs, and EISs supporting a wide variety of projects including forest health, wind and solar energy generation, transportation, mining, and oil and gas development.

Mr. Kizlinski provides project support at all levels of CWA actions, delineations of waters, assisting project design to minimize and avoid impacts, preliminary and formal jurisdictional determinations, and Nationwide and Individual Permits.

Specifically, his areas of expertise include NEPA, agency coordination, biological monitoring, environmental compliance, mitigation monitoring, wetland delineation, pre-construction permitting, Clean Water Act compliance, plant surveys, wildlife surveys, and stakeholder coordination.

Mr. Kizlinski's clients include multiple public agencies and private clients. Public agency work includes federal, state, and local agencies including FHWA, General Services Administration, the U.S. Army, the U.S. Forest Service, the Colorado Department of Transportation, and local municipalities in California, Colorado, Kansas, Utah, Arizona, Montana and New Mexico. Some of his private clients include Apex Clean Energy, the Honeywell Corporation, Union Pacific Railroad, Iberdrola Renewables, Caliber Midstream, Suncor Corporation, Wyoming Wind and Power, LLC, Top of the World Wind Energy, LLC and PacifiCorp.

Notable recent projects include I-70 Floyd Hill to Veterans Memorial Tunnels , I-70 Bakerville to EJMT Auxiliary Lane, U.S. 34 Permanent Repair Project, Southeast Metro Natural Gas Pipeline Project, North Ellicott Highway Bridge Replacement Project, Arrow Canyon Solar Project, and Ft. Logan National Cemetery.
