

Melissa Martin

Melissa Martin joined Peak in 2023 as an Intern and full-time after graduating from University of Colorado Denver with her Master's in Urban Planning in May 2024. She assists with NEPA documentation for state and federal transportation projects, including alternatives analyses, environmental resource impacts analyses, environmental justice evaluation, public involvement, graphic design, and mapping.

Notable recent projects include Colorado Front Range Passenger Rail station area analysis, alternatives analysis, and environmental context reports; I-25 US 36 to 104th, and the I-270 Improvements Environmental Impact Statement.
